

UNITED STATES DEPARTMENT OF AGRICULTURE

SERVICE AND REGULATORY ANNOUNCEMENTS

BUREAU OF ANIMAL INDUSTRY

MAY 1935

[This publication is issued monthly for the dissemination of information, instructions, rulings, etc., concerning the work of the Bureau of Animal Industry. Free distribution is limited to persons in the service of the Bureau, establishments at which the Federal meat inspection is conducted, public officers whose duties make it desirable for them to have such information, and journals especially concerned. Others desiring copies may obtain them from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 5 cents each or 25 cents a year (foreign, 45 cents). A supply will be sent to each official in charge of a station or branch of the Bureau service, who should promptly distribute copies to members of his force. A file should be kept at each station for reference.]

NOTICES REGARDING MEAT INSPECTION**COLORS ARTIFICIAL CASINGS**

Experience has shown that the colored artificial hydrocellulose casings both transparent and opaque, cannot be successfully marked with ink brands. Accordingly, effective October 1, 1935, the inspection legend, establishment number, name of product when required, and all other required markings, such as "imitation", "artificially colored", "cereal added", and "dried skimmed milk added", must be legibly, conspicuously, and permanently applied by printing to all colored artificial hydrocellulose casings other than those to which the color is applied in the establishment after stuffing.

After October 1, 1935, unprinted colored hydrocellulose casings shall not be used.

DUMMY PACKAGES OR EMPTY CONTAINERS FOR DISPLAY

Approved labels, lithographed containers, cartons, etc., bearing the marks of inspection may be removed from official establishments for display purposes without obtaining special authority from the Washington office and without preparing or mutilating the containers in such a manner as to render their future use impracticable. All instructions in conflict therewith are hereby revoked. This ruling does not change requirement of obtaining authorization for inter-establishment shipments of material bearing the inspection legend or the inspection legend and establishment number for future use without proper authority and supervision as required by Service and Regulatory Announcements of March 1924, notice under the caption "Distribution of labels bearing the inspection legend."

INSPECTIONS FOR UNITED STATES VETERANS ADMINISTRATION

In the future M. I. Forms 148 (revised) reporting inspections for United States Veterans' Administration Hospitals and United States National Homes should show the amount of time required to make the inspections, the total charge for the inspections, and the rate per hour on which such charge is based. An office record should be kept of such individual charges for use in preparing Form T-69, reporting the total monthly charge for such inspections.

The copy of this form previously forwarded to the United States Veterans' Administration Hospital Service and the National Homes Service, Washington, D. C., should be forwarded to the Chief, Procurement Division, United States Veterans' Administration, Washington, D. C., in the future.

PROCEEDINGS UNDER THE PACKERS AND STOCKYARDS ACT

Docket no. 298.—In re St. Joseph Stock Yards Co., South St. Joseph, Mo. An order by the Secretary of Agriculture fixing rates to be charged by the St. Joseph Stock Yards Co., which was challenged by the company when issued in May 1934, has been upheld by a special United States District Court in western Missouri. The court at the same time denied the request of the stockyards company made in February 1934 to reopen the case because of a change in conditions. This inquiry was begun in 1929. In February 1931, after the evidence obtained had been submitted to the Secretary of Agriculture, the stockyards company asked to have the case reopened because of economic conditions. The Secretary denied this request and issued an order in July 1931 fixing rates. The stockyards company appealed and the court ruled the Secretary was in error in not granting the petition to reopen the case. The case was reopened and hearings held in January and February of 1933, the results of which were sent to the stockyards company in January 1934. The stockyards company on February 2, 1934, filed exceptions and again asked that the case be reopened. This the Secretary refused in his order of May 4, 1934, fixing reasonable rates.
